

Sustainability Statement

"Empowering a greener tomorrow, Metropolis International / emap is committed to sustainable solutions that harmonise environmental responsibility with business practice. By integrating eco-friendly practices into every facet of our operations, we strive to minimise our ecological footprint and inspire positive change including in the industries and communities we serve. Together, we are building a resilient future where prosperity and sustainability coexist, fostering a world where every action counts towards a healthier planet."

Our Policy

At Metropolis International / emap, we recognise our responsibility to contribute to a sustainable future. We are committed to integrating environmental considerations into our business practices. Our sustainability policy encompasses the following key principles:

Transparency and reporting:

We will communicate our sustainability goals, progress, and challenges to stakeholders through regular reporting.

Environmental considerations:

We will continually strive to reduce and minimise our environmental impact by conserving resources, reducing waste, and adopting eco-friendly technologies. We are dedicated to sustainable sourcing and will work with suppliers who share our commitment to environmental responsibility.

Energy efficiency:

We will optimize our energy usage, seeking renewable sources, and implementing energy-efficient technologies to reduce our carbon footprint.

Waste reduction:

We aim to minimize waste generation through recycling programs, waste reduction initiatives, and the responsible disposal of materials.

Innovation for Sustainability:

We will research, identify, share and implement innovative solutions that contribute to sustainability in our industry.

Compliance:

We will adhere to all relevant environmental laws, regulations, and standards, and strive to exceed them.

Continuous improvement:

We will regularly review and update our sustainability practices, seeking opportunities for improvement and staying abreast of emerging best practices in sustainability and sharing this with suppliers, customers and staff.

Leadership:

We will use our leading position in media in the niche industries and communities we serve to promote and foster environmentally sustainable practices including in our content and focussed events.
